1991 Tarob Court
Milpitas, CA 95035 USA

This document certifies that the model numbers listed above are in compliance with TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581).

TAA requires that the U.S. Government acquire products that are produced or undergo a "substantial transformation" within the United States or a designated country.

TAA compliant products make it possible for U.S. government agencies and educational institutions to do business with a USA based company like MSA Safety Company. Federal procurement contracts that require TAA compliance include GSA (General Services Administration) Schedule contracts, IDIQ (Indefinite Delivery, Indefinite Quantity) contracts, and most DoD (Department of Defence) contracts.

MSA Safety Company, specifically the major components included software and configurations, are designed, tested, and supported in the United States from US and international components. We are confident the models listed above meet and exceed the TAA standards outlined above.

For any further inquiries about MSA Safety Company's TAA Compliance, please contact us directly and we will be happy to assist you with any inquiries you may have.
